Profile

I am a senior software developer with over 5 years of experience in building and deploying large-scale software applications. Over the years, I have worked with **PHP** (Laravel, Codeigniter, SlimPHP), **Python** (Flask, Django), and **Javascript** (VueJs).

Employment History

Backend Developer, harnessgiving.com, Tampa, Florida

APRIL 2022 – PRESENT

- Make architectural decisions for the core API and database.
- Optimize complicated SQL queries to run faster

Backend Engineer , Thepeer, Lagos

2021 – 2022

- Built endpoints used to calculate the transactional metrics, handle withdrawals
- Implemented thorough tests including integration tests, feature tests, and unit tests. (using PestPHP)
- Optimized endpoint using SQL indexes, caching mechanisms and implemented queued jobs for operations that should run in the background. (AWS SQS)

Senior Backend Developer, bitsika.africa, Accra

2020 – 2021

- Maintained the micro-service infrastructure.
- Led a team of 3 engineers to build and maintain a merchant API.
- Implemented roles and permissions functionality that allows users to have different roles and permissions in different merchants.
- Planned and implemented a factory design pattern for consuming third-party payment services.
- Mock external services and improved unit tests

Senior Software Developer, workflare.com (Contract), Leeds, England

2020 – 2021

- Architected and built software in multiple frameworks and languages. (Laravel, Tailwindcss, InertiaJs, VueJs)

Senior Software Developer, nigeriaproertycenter.com (contract), Lagos

2020 – 2021

- Optimized search speed with the use of Elastic search, and caching where necessary
- Introduced new algorithms to help curb fraudulent activities
- Refactor raw SQL in the codebase to use Laravel eloquent methods

Senior Backend Developer, hotels.ng, Lagos

2016 – 2020

- Led a team of seven (7) to plan, develop, and deploy timbu.com a global hotel booking platform
- Wrote a script used to fetch over 15,000 hotels across Africa, and a web scraping tool to fetch further information on search engines

Education

Bachelor Of Science , Electrical/Electronics Engineering , Ogun State, Nigeria

OCTOBER 2011 – AUGUST 2016
